

Global Auto Repair - Certified for Integrity and Expertise

By LaDonna Armstrong

Okay, Ladies, let's be honest. Most of us know nothing about cars except how to drive them and how to put gas in them. However, we can recognize when something doesn't feel quite right or the car is making an unusual sound. At that point, some of us will turn around and as we hand the keys over, say, "Honey, can you get this fixed please?"

Why do we do this? Because we don't know where to go or who to trust. Well, we no longer have that problem. We can now turn to Global Auto Repair.

Global Auto Repair is a "Certified Auto Repair" shop. Certified Auto Repair isn't a shop name, a chain of stores or even a franchise. Certified Auto Repair embodies a standard of quality held by a nationwide network of the most respected auto repair facilities in the industry. The members are asked to join based on reputation, integrity, qualifications and expertise. Certified Auto Repair members will not only take care of all your vehicle needs, but do it with professionalism and a level of

Store Manager, Jesus Villa, and Wojciech "Voytek" Orzel (L.), owner of Global Auto Repair.

customer satisfaction second to none.

Global Auto Repair is locally owned; and the owner Wojciech Orzel, known as Voytek, is an ASE Certified Mechanic. That means he is a competent, highly professional mechanic certified by the US National Institute for Automotive Service Excellence.

Voytek learned his trade in Poland where

you are required to complete three years of training. He immigrated from Poland 22 years ago and settled in Chicago; then moved his family to Arizona 10 years ago. His 14 year old son attends school in Goodyear.

Global Auto Repair will repair and maintain your car. They are not part of a franchise and they don't have quotas to meet. So no one will

be trying to sell you something you do not need.

If your car is making funny noises, they will inspect it for free and let you know what it needs. Then it is up to you how you want them to proceed. If your car did not pass the emission's test, they can make the appropriate repairs.

Global Auto Repair is experienced with all makes and models, domestic and international.

They have six mechanics and seven bays enabling them to get your car back to you in a timely manner. Shop Manager, Jesus Villa, says they usually get most cars out the same day. Appointments are preferred; but you can also drop your car off.

So, Ladies, (and men also), the next time your car is acting up... or just needs its usual maintenance, head on over to Global Auto Repair, 500 N. Bullard, Suite 26 (just south of Interstate 10) and feel confident that your car is in good, honest hands. Give Jesus a call at 623-882-9933 to schedule your appointment and be sure to check out their specials in their ad in your West Valley Star.

Card from satisfied customer.

Wojciech and Staff,

Both my wife and I want to thank you for the excellent service we always get from your shop. We have never experienced such courteous, professionalism and honest people as we have from your shop. Before we came to Global Auto Repair, we had gone to many other mechanics, and for the most part, we always felt we were being taken advantage of. May your business continue to grow, and may you continue to be that business in the West Valley that everyone can trust. With sincere gratitude and appreciation.

A. and M. C.
